

## Career Paths for Doctoral and Postdoctoral Researchers: A Panel Discussion

– INVITATION –

The SFB 1176 invites doctoral and postdoctoral researchers to a panel discussion highlighting different possible career paths for young researchers.

We have invited following key speakers from various fields to participate in this panel discussion:

- **Prof. Manfred Wilhelm** – Chair Polymeric Materials, Institute for Chemical Technology and Polymer Chemistry, Karlsruhe Institute of Technology
- **Dr. Ruth Bieringer** – Head of Material Technologies, Freudenberg Technology Innovation SE & Co.KG, Weinheim
- **Prof. Dr. Stefanie Dehnen** – Professor for Inorganic Chemistry, Philipps-Universität Marburg
- **Associate Professor Leonie Barner** – Platform Leader “Manufacturing with Advanced Materials”, Queensland University of Technology
- **Dr. Alexander Colsmann** – Head of Organic Photovoltaics Group, Karlsruhe Institute of Technology

Panelists will talk about their careers, about decisions they had made on their career path, and the experiences they had gained during the different stages of their careers. In addition, topics such as the reconciliation of work and family life, and the differences between a career in industry and an academic career would be a part of the discussion.

The panel discussion is followed by informal networking over some food and drinks.

Date: **Tuesday, October 10, 2017**

Time: **From 5 p.m. – approx. 7.30 pm**

Where: **KIT, Campus South, [Building 50.41 \(AVG\)](#), room 145/146**

If you didn't register for this event, please do so via Doodle (please mark also, if you cannot participate):
